

Artevia

THE ART OF CONCRETE

EXPRESS YOUR STYLE

DESIGNED TO INSPIRE

Artevia™ the Lafarge decorative concrete line, provides you with the freedom to express your style through beautiful outdoor landscapes and vibrant indoor spaces.

Artevia is much more than concrete. It is a stunningly beautiful design material with the strength and durability of concrete.

MORE CREATIVITY

A photograph of an outdoor courtyard. The floor is made of large, reddish-brown stone tiles. On the right, there is a wall made of rough-hewn, light-colored stone blocks. Above the wall, a wooden pergola structure with horizontal slats is visible. In the background, there is a wooden lattice screen and some greenery. The image is framed by a white diagonal shape on the left side.

ENDLESS POSSIBILITIES

Artevia finishes and colours allow you to achieve any design or concept. From decorative stones to creative textures, polished surfaces and sophisticated patterns, Artevia provides the creative solution.

1

CHOOSE YOUR PROJECT

Driveway

Indoor floor

Landscaping

Garage floor

Pool deck

Pathway

2

SELECT A FINISH

PRINT

A beautiful range of durable patterns and textures

EXPOSED

A robust exterior concrete with a gravelled finish

POLISH

A smooth concrete with a texture like polished marble

SAND

A concrete with the look and feel of natural sand

**YOUR ARTEVIA
PROJECT TAKES
JUST 4 STEPS.**

FROM START TO FINISH

3

CHOOSE A COLOUR

Choose from our colour palette designed and tested by experts to complement any of the four finishes presented. These colours can also be added to any standard concrete.

Use this palette as a guide only. colours are an approximation of a broom finish made with medium grey cement. Concrete colour is altered by many factors including cement colour, slump, finishing, weather and curing. We recommend a sample pour to ensure the results meet your expectations.

If your project requires a different colour than you see above, ask our Artevia experts about our custom colour system and they can help you determine if it's right for your project.
